Acidic fibroblast growth factor
Interaction of acidic fibroblast growth factor and transforming growth factor-β in normal and transformed glia *in vitro*, 850

Acoustic nerve
Malignant triton tumor of the acoustic nerve. Case report, 874

Acoustic neurinoma
Current results of the retrosigmoid approach to acoustic neurinoma, 901
Hearing preservation in acoustic neurinoma surgery, 910

Adenoma
Aneurysmal dilatation of ICA after tumor resection. Letters, 169
Endocrinological evaluation of ACTH-secreting pituitary microadenomas: their location and α-melanocyte stimulating hormone immunoreactivity, 944

Adenosine triphosphate
High-energy phosphate levels in the cerebral artery during chronic vasospasm after subarachnoid hemorrhage, 991

Adhesion molecule
Adhesion molecules and malignant gliomas: implications for tumorigenesis. Review article, 782

Adrenocorticotropic hormone
Endocrinological evaluation of ACTH-secreting pituitary microadenomas: their location and α-melanocyte stimulating hormone immunoreactivity, 944

American Association of Neurological Surgeons
Abstracts for AANS Annual Meeting, 370A
Scientific program: Annual Meeting of the American Association of Neurological Surgeons, April 11–16, 1992, 346

Amino acid
Autoradiographic analysis of ^{3}H-MK-801 (dizocilpine) *in vivo* uptake and *in vitro* binding after focal cerebral ischemia in the rat, 127

Amino acid receptor
Efficacy of LY233053, a competitive glutamate antagonist, in experimental central nervous system ischemia, 106

Amyloid
Lobar intracerebral hemorrhage. A clinical, radiographic, and pathological study of 29 consecutive operated cases with negative angiography, 231
Skull base amyloidoma. Case report, 303

Anastomosis, *see* Vascular anastomosis

Anatomical study
Cavernous sinus exploration. Letters, 341
Intraoperative anatomical studies in patients with aneurysms of the anterior communicating artery complex, 629
Neurovascular compression in trigeminal neuralgia: a clinical and anatomical study, 948
Variations in location of the arteries coursing between the brain stem and the free edge of the tentorium, 973

Aneurysm, *see also* various types
Aneurysmal dilatation of ICA after tumor resection. Letters, 169
Aneurysms arising from the proximal (A_1) segment of the anterior cerebral artery. A study of 38 cases, 455
Cerebral protection during aneurysm surgery with isoflurane anesthesia. Technical note, 541
Effect of AT877 on cerebral vasospasm after aneurysmal subarachnoid hemorrhage. Results of a prospective placebo-controlled double-blind trial, 571
Endovascular treatment of aneurysms with coils. Letters, 337
Intracranial aneurysms in sickle-cell anemia. Letters, 1051
Intraoperative anatomical studies in patients with aneurysms of the anterior communicating artery complex, 629
Lobar intracerebral hemorrhage. A clinical, radiographic, and pathological study of 29 consecutive operated cases with negative angiography, 231
Pathogenesis of sickle-cell anemia and aneurysm. Letters, 1050
The relationship of ventricular drainage to aneurysmal rebleeding, 422
Three-dimensional computerized tomography angiography in the diagnosis of cerebrovascular disease, 408

Aneurysm, dissecting
Angiographic frequency of saccular intracranial aneurysms in patients with spontaneous cervical artery dissection, 62
Posterior circulation dissections. Letters, 562

Aneurysm, giant
Anastomosis of the anterior temporal artery to a secondary trunk of the middle cerebral artery for treatment of a giant M_1 segment aneurysm. Case report, 863
Direct approach to a traumatic giant internal carotid artery aneurysm associated with a carotid-cavernous fistula. Case report, 524
A newly designed puncture needle for suction decompression of giant aneurysms. Technical note, 880

Aneurysm, neoplastic
Metastatic choriocarcinoma with neoplastic aneurysms cured by aneurysm resection and chemotherapy. Case report, 148
Aneurysm, saccular
Angiographic frequency of saccular intracranial aneurysms in patients with spontaneous cervical artery dissection, 62
Rupture of previously documented small asymptomatic saccular intracranial aneurysms. Report of three cases, 1019
Angiogenesis
Correlation of basic fibroblast growth factor expression levels with the degree of malignancy and vascularity in human gliomas, 792
Angiography
Intraventricular neurocytoma: clinicopathological analysis of seven cases, 759
Three-dimensional computerized tomography angiography in the diagnosis of cerebrovascular disease, 408
Angioplasty
Resolution of petrous internal carotid artery stenosis after transluminal angioplasty. Case report, 520
Anomaly
Anomalous arrangement of the origins of the anterior choroidal and posterior communicating arteries. Case report, 1017
Variations in the A_1 segment. Letters, 1041
Anterior cerebral artery
Aneurysms arising from the proximal (A_1) segment of the anterior cerebral artery. A study of 38 cases, 455
Variations in the A_1 segment. Letters, 1041
Anterior choroidal artery
Anomalous arrangement of the origins of the anterior choroidal and posterior communicating arteries. Case report, 1017
Anterior communicating artery
Intraoperative anatomical studies in patients with aneurysms of the anterior communicating artery complex, 629
Antigen
Suppression of anchorage-independent growth of human glioblastoma cell by major histocompatibility complex class I gene-transfection, 845
Aortic coarctation
Remote congenital cerebral arteriovenous fistulae associated with aortic coarctation. Case report, 137
Apnea
Apnea testing for the determination of brain death: a modified protocol. Technical note, 1029
Arnold-Chiari malformation
Significance of positive Queckenstedt test in patients with syringomyelia associated with Arnold-Chiari malformations, 67
Arteriovenous fistula
Cranial and sacral dural arteriovenous fistulas as a cause of myelopathy, 615
Etiological evaluation of dural arteriovenous malformations of the lateral and sigmoid sinuses based on histopathological examinations, 600
Iatrogenic arteriovenous fistula presenting as a recurrent subdural hematoma. Case report, 134
Remote congenital cerebral arteriovenous fistulae associated with aortic coarctation. Case report, 137
Arteriovenous malformation, *see also* Spinal arteriovenous malformation
An analysis of the venous drainage system as a factor in hemorrhage from arteriovenous malformations, 239
Cavernous angiomas of the central nervous system in children, 38
Complications of radiosurgery for brain AVM's. Letters, 559
Etiological evaluation of dural arteriovenous malformations of the lateral and sigmoid sinuses based on histopathological examinations, 600
Histopathological follow-up study of 66 cerebral arteriovenous malformations after therapeutic embolization with polyvinyl alcohol, 607
Intra-arterial urokinase for treatment of retrograde thrombosis following resection of an arteriovenous malformation. Case report, 1004
Radiosurgery of arteriovenous malformations. Letters, 1045
Relationship of perfusion pressure and size to risk of hemorrhage from arteriovenous malformations, 918
Surgical excision of giant cerebellar hemispheric arteriovenous malformations following preoperative embolization. Report of two cases, 1008
Artery, *see also* specific arteries
High-energy phosphate levels in the cerebral artery during chronic vasospasm after subarachnoid hemorrhage, 991
Astrocytoma
Histological grading and labeling index of astrocytomas: correction. Letters, 563
Human antiglioma monoclonal antibodies from patients with astrocytic tumors, 660
Autoradiography
Autoradiographic analysis of ^{3}H-MK-801 (dizocilpine) *in vivo* uptake and *in vitro* binding after focal cerebral ischemia in the rat, 127
Autoregulation
Perfusion pressure breakthrough threshold of cerebral autoregulation in the chronically ischemic brain: an experimental study in cats, 478
Time course of the impairment of cerebral autoregulation during chronic cerebral vasospasm after subarachnoid hemorrhage in primates, 493

BCNU
The intracerebral distribution of BCNU delivered by surgically implanted biodegradable polymers, 640
A randomized comparison of intra-arterial versus intravenous BCNU, with or without intravenous 5-fluorouracil, for newly diagnosed patients with malignant glioma, 772
Bioerodible polyorthoester
Regeneration of calvarial defects by a composite of bioerodible polyorthoester and demineralized bone in rats, 275
Biomechanics
Biomechanics of sequential posterior lumbar surgical alterations, 805
Biopsy
Timing of stereotactic procedures. Letters, 1044
Blindness
Terson's syndrome: a reversible cause of blindness following subarachnoid hemorrhage, 766
Bone dissection
Instrumentation for microsurgical osseous dissection. Technical note, 156
Bone graft
Anterior cervical vertebrectomy and interbody fusion. Technical note, 159
Multilevel anterior cervical fusion using skull bone grafts. Case report, 298

Brachial plexus
Intraforaminal repair of plexus spinal nerves by a posterior approach: an experimental study, 459
Nerve transfer in brachial plexus traction injuries, 191

Brachytherapy
Selection bias, survival, and brachytherapy for glioma, 179

Brain death
Apnea testing for the determination of brain death: a modified protocol. Technical note, 1029
Preserved spinal dorsal horn potentials in a brain-dead patient with Lazarus' sign. Case report, 710

Brain energy metabolism
Chemical monitoring of neurosurgical intensive care patients using intracerebral microdialysis, 72

Brain herniation
Variations in location of the arteries coursing between the brain stem and the free edge of the tentorium, 973

Brain injury, *see also* Head injury
Central and peripheral biogenic amine effects of brain missile wounding and increased intracranial pressure, 119
Intravenous fluid tonicity: effect on intracranial pressure, cerebral blood flow, and cerebral oxygen delivery in focal brain injury, 91
Results of a prospective randomized trial for treatment of severely brain-injured patients with hyperbaric oxygen, 929

Brain neoplasm, *see also* specific neoplasms
Immunotoxins and central nervous system neoplasia. Review article, 1
The intracerebral distribution of BCNU delivered by surgically implanted biodegradable polymers, 640
In vitro efficacy of transferrin-toxin conjugates against glioblastoma multiforme, 838
Major histocompatibility antigens in murine tumors. Letters, 1048
Multidrug resistance gene expression in pediatric primitive neuroectodermal tumors of the central nervous system, 507
A randomized comparison of intra-arterial versus intravenous BCNU, with or without intravenous 5-fluorouracil, for newly diagnosed patients with malignant glioma, 772
Stereotactic radiosurgical treatment of brain metastases, 444
Treatment of murine primary brain tumors with systemic interleukin-2 and tumor-infiltrating lymphocytes, 513

Brain stem
Cavernous angiomas of the central nervous system in children, 38
Variations in location of the arteries coursing between the brain stem and the free edge of the tentorium, 973

Brain-stem auditory evoked potentials
Hearing preservation in acoustic neurinoma surgery, 910

Brain stimulation
Chronic stimulation of the Kölliker-Fuse nucleus region for relief of intractable pain in humans, 979

Brain swelling
Diffuse brain swelling in severely head-injured children. A report from the NIH Traumatic Coma Data Bank, 450

Brain tolerance
Brain tolerance to radiosurgery. Letters, 557

Bromocriptine
Relief of akinetic mutism from obstructive hydrocephalus using bromocriptine and ephedrine. Case report, 152

B waves
The relationship of blood flow velocity fluctuations to intracranial pressure B waves, 415

Calcium antagonist
Effect of AT877 on cerebral vasospasm after aneurysmal subarachnoid hemorrhage. Results of a prospective placebo-controlled double-blind trial, 571

Calpeptin
Effects of inhibitors of protein kinase C and calpain in experimental delayed cerebral vasospasm, 111

Calvaria
Regeneration of calvarial defects by a composite of bioerodible polyorthoester and demineralized bone in rats, 275

Canthal advancement
Long-term results after lateral canthal advancement for unilateral coronal synostosis, 401

Carotid artery occlusion
Thromboendarterectomy of the symptomatic occluded internal carotid artery, 752

Carotid-cavernous fistula
Direct approach to a traumatic giant internal carotid artery aneurysm associated with a carotid-cavernous fistula. Case report, 524
Spontaneous intracerebral hematoma from occult carotid-cavernous fistula during pregnancy and puerperium. Case report, 714

Catecholamine
Central and peripheral biogenic amine effects of brain missile wounding and increased intracranial pressure, 119

Cauda equina
Selective dorsal rhizotomy. Letters, 1047

Cavernous angioma
Cavernous angiomas of the central nervous system in children, 38

Cavernous sinus
Cavernous sinus exploration. Letters, 341

CCNU
The treatment of oligodendrogliomas and mixed oligodendroglioma-astrocytomas with PCV chemotherapy, 741
Central nervous system
Cavernous angiomas of the central nervous system in children, 38
Immunotoxins and central nervous system neoplasia. Review article, 1
Cerebral blood flow
Cerebral blood flow and metabolism following superficial temporal artery to superior cerebellar artery bypass for vertebrobasilar occlusive disease, 955
Continuous monitoring of jugular venous oxygen saturation in head-injured patients, 212
Effect of head elevation on intracranial pressure, cerebral perfusion pressure, and cerebral blood flow in head-injured patients, 207
Reduced cerebral blood flow, oxygen delivery, and electroencephalographic activity after traumatic brain injury and mild hemorrhage in cats, 812
Cerebral mantle
Reconstitution of shunted mantle in experimental hydrocephalus, 856
Cerebral perfusion pressure
Effect of head elevation on intracranial pressure, cerebral perfusion pressure, and cerebral blood flow in head-injured patients, 207
Cerebrospinal fluid leak
Rapid polymerizing fibrin glue from autologous or single-donor blood: preparation and indications, 626
Cerebrovascular disease
Three-dimensional computerized tomography angiography in the diagnosis of cerebrovascular disease, 408
Cervical myelopathy
Stenosis of the axis and cervical myelopathy. Case report, 296
Cervical spine
Multilevel anterior cervical fusion using skull bone grafts. Case report, 298
Prognostic significance of magnetic resonance imaging in the acute phase of cervical spine injury, 218
Surgical stabilization of cervical spinal fractures using methyl methacrylate. Technical considerations and long-term results in 52 patients, 440
Cervical spondylosis
Anterior cervical vertebrectomy and interbody fusion. Technical note, 159
Chemonucleolysis
A 1- to 4-year follow-up review of treatment of sciatica using chemonucleolysis or laminectomy, 184
Chemotactic factor
Endothelial cell chemotactic factor derived from human glioma cell lines, 822
Chemotherapy
The intracerebral distribution of BCNU delivered by surgically implanted biodegradable polymers, 640
Metastatic choriocarcinoma with neoplastic aneurysms cured by aneurysm resection and chemotherapy. Case report, 148
A randomized comparison of intra-arterial versus intravenous BCNU, with or without intravenous 5-fluorouracil, for newly diagnosed patients with malignant glioma, 772
The treatment of oligodendrogliomas and mixed oligodendroglioma-astrocytomas with PCV chemotherapy, 741
Chiari malformation
Chiari malformation hydromyelia vs. syringomyelia. Letters, 1043
Thecoperitoneal shunting. Letters, 173
Children
Aggressive surgical management of craniopharyngiomas in children, 47
Diffuse brain swelling in severely head-injured children. A report from the NIH Traumatic Coma Data Bank, 450
Multidrug resistance gene expression in pediatric primitive neuroectodermal tumors of the central nervous system, 507
Third ventriculostomy. Letters, 890
Chordoma
Falcotentorial angle chordoma. Letters, 175
Choriocarcinoma
Metastatic choriocarcinoma with neoplastic aneurysms cured by aneurysm resection and chemotherapy. Case report, 148
Chromosome
Interphase cytogenetics: a new tool for the study of genetic changes in brain tumors, 997
Clivus tumor
Transnasal stereotactic biopsy of a clivus tumor. Technical note, 878
Collagen
Cytoskeletal and extracellular matrix proteins in cerebral arteries following subarachnoid hemorrhage in monkeys, 81
Collagenase
The effect of tumor necrosis factor-α on human malignant glial cells, 652
Computerized tomography
Three-dimensional computerized tomography angiography in the diagnosis of cerebrovascular disease, 408
Coronal synostosis
Long-term results after lateral canthal advancement for unilateral coronal synostosis, 401
Surgical approach to unilateral coronal synostosis. Editorial comment, 406
Corpus callosum
Giant interhemispheric cysts associated with agenesis of the corpus callosum, 224
Corticosteroid therapy
In vitro analysis of the proliferative potential of T cells from patients with brain tumor: glioma-associated immunosuppression unrelated to intrinsic cellular defect, 251
Craniectomy
Current results of the retrosigmoid approach to acoustic neurinoma, 901
Craniofacial surgery
Long-term results after lateral canthal advancement for unilateral coronal synostosis, 401
Craniopharyngioma
Aggressive surgical management of craniopharyngiomas in children, 47
Cranioplasty
Regeneration of calvarial defects by a composite of bioerodible polyorthoester and demineralized bone in rats, 275
Craniosynostosis
Long-term results after lateral canthal advancement for unilateral coronal synostosis, 401
Craniotomy
Reconstruction of the temporalis muscle. Letters, 336
Cushing, Harvey
A height-based nomenclature of greatness. Letters, 726
Cushing's disease
Aneurysmal dilatation of ICA after tumor resection. Letters, 169
Endocrinological evaluation of ACTH-secreting pituitary microadenomas: their location and α-melanocyte stimulating hormone immunoreactivity, 944
Cyst, *see* various types
Cyst, arachnoid
Giant interhemispheric cysts associated with agenesis of the corpus callosum, 224
Cyst, epidermoid
Intramedullary epidermoid cysts of the spinal cord. Case report, 528
Masson's vegetant intravascular hemangioendothelioma. Letters, 890
Cyst, ganglion
Ultrasound diagnosis of an intraneural ganglion cyst of the peroneal nerve. Case report, 538
Cyst, interhemispheric
Giant interhemispheric cysts associated with agenesis of the corpus callosum, 224

Index

Detachable coils
Endovascular treatment of aneurysms with coils. Letters, 337
Dexamethasone
Hormone receptors and glioma cell growth. Letters, 168
Dialysis
Chemical monitoring of neurosurgical intensive care patients using intracerebral microdialysis, 72
Diphtheria toxin
Immunotoxins and central nervous system neoplasia. Review article, 1
Discectomy
Instrumentation for microsurgical osseous dissection. Technical note, 156
Dizocilpine
Autoradiographic analysis of ^{3}H-MK-801 (dizocilpine) *in vivo* uptake and *in vitro* binding after focal cerebral ischemia in the rat, 127
Double publication
On the subject of double publication. Letters, 723
Drug delivery
The intracerebral distribution of BCNU delivered by surgically implanted biodegradable polymers, 640
A randomized comparison of intra-arterial versus intravenous BCNU, with or without intravenous 5-fluorouracil, for newly diagnosed patients with malignant glioma, 772

Edema
Intravenous fluid tonicity: effect on intracranial pressure, cerebral blood flow, and cerebral oxygen delivery in focal brain injury, 91
Leukotrienes and cerebral edema. Letters, 339
Editorial comment
On the subject of double publication. Letters, 723
Skull-base surgery: a perspective. Guest editorial, 569
Surgical approach to unilateral coronal synostosis. Editorial comment, 406
Vestibular schwannomas. Guest editorial, 897
Electroencephalography
Cerebral protection during aneurysm surgery with isoflurane anesthesia. Technical note, 541
Electron microscopic study
Fibroma of the meninges in a child: immunohistological and ultrastructural study. Case report, 143
Embolization
Histopathological follow-up study of 66 cerebral arteriovenous malformations after therapeutic embolization with polyvinyl alcohol, 607
Surgical excision of giant cerebellar hemispheric arteriovenous malformations following preoperative embolization. Report of two cases, 1008
Embryonic study
Variations in the A_1 segment. Letters, 1041
Encephalocele
Tension pneumocephalus associated with rupture of a middle fossa encephalocele. Case report, 292
Endarterectomy
Thromboendarterectomy of the symptomatic occluded internal carotid artery, 752
Endocrine dysfunction
Aggressive surgical management of craniopharyngiomas in children, 47
Endothelial cell
Endothelial cell chemotactic factor derived from human glioma cell lines, 822
Endothelin-1
Endothelin-1 of canine basilar artery in vasospasm, 99
Endothelium-derived relaxing factor
The effect of chronic subarachnoid hemorrhage on basal endothelium-derived relaxing factor activity in intrathecal cerebral arteries, 830
The effect of hemoglobin on vasodilatory effect of calcium antagonists in the isolated rabbit basilar artery, 670
Endovascular therapy
Endovascular treatment of aneurysms with coils. Letters, 337
Enteral feeding
Nutrition in head-injured patients. Letters, 170
Entrapment neuropathy
Tortuous peripheral arteries: a cause of focal neuropathy. Case report, 700
Eosinophilia
Eosinophilia following shunting. Letters, 724
Ephedrine
Relief of akinetic mutism from obstructive hydrocephalus using bromocriptine and ephedrine. Case report, 152
Epidermal growth factor
Sensitivity of human glioma and brain cells to natural killer cell lysis. Effects of serum concentration, epidermal growth factor, and time in culture, 986
Epilepsy, *see* Seizure
Epinephrine
Central and peripheral biogenic amine effects of brain missile wounding and increased intracranial pressure, 119
Erratum

Sickle-cell disease: correction. Letters, 726
Evoked potentials
Evoked potentials from direct cerebellar stimulation for monitoring of the rodent spinal cord, 280
Expert witness
Neurosurgical liability: the expert witness, 334
Extracellular matrix
Cytoskeletal and extracellular matrix proteins in cerebral arteries following subarachnoid hemorrhage in monkeys, 81
Extracranial-intracranial bypass, *see* Vascular anastomosis

Facial nerve
Temporal bone neoplasms: a report on 20 surgically treated cases, 578
Falcotentorial angle
Falcotentorial angle chordoma. Letters, 175
Fibrin glue
Rapid polymerizing fibrin glue from autologous or single-donor blood: preparation and indications, 626
Fibrinogen
Rapid polymerizing fibrin glue from autologous or single-donor blood: preparation and indications, 626
Fibroblast growth factor
Correlation of basic fibroblast growth factor expression levels with the degree of malignancy and vascularity in human gliomas, 792
Fibroma
Fibroma of the meninges in a child: immunohistological and ultrastructural study. Case report, 143
Fluorescence detection
Laser-induced fluorescence: experimental intraoperative delineation of tumor resection margins, 679
Free fatty acid
Action of phospholipases A_2 and C on free fatty acid release during complete ischemia in rat neocortex. Effect of phospholipase C inhibitor and N-methyl-D-aspartate antagonist, 648
Functional localization
Intraoperative localization of the central sulcus by cortical somatosensory evoked potentials in brain tumor. Case report, 867

Geniculate neuralgia
Geniculate neuralgia. Letters, 888
Gentamicin
Eosinophilia following shunting. Letters, 724
Glioblastoma
Effect of the expression of transforming growth factor-β2 in primary human glioblastomas on immunosuppression and loss of immune surveillance, 799
In vitro efficacy of transferrin-toxin conjugates against glioblastoma multiforme, 838
Suppression of anchorage-independent growth of human glioblastoma cell by major histocompatibility complex class I gene-transfection, 845
Glioma
Adhesion molecules and malignant gliomas: implications for tumorigenesis. Review article, 782
Correlation of basic fibroblast growth factor expression levels with the degree of malignancy and vascularity in human gliomas, 792
Endothelial cell chemotactic factor derived from human glioma cell lines, 822
Hormone receptors and glioma cell growth. Letters, 168

Early seizures after mild closed head injury, 435
Effect of head elevation on intracranial pressure, cerebral perfusion pressure, and cerebral blood flow in head-injured patients, 207
Nutrition in head-injured patients. Letters, 170
Prediction tree for severely head-injured patients. Letters, 561
Reduced cerebral blood flow, oxygen delivery, and electroencephalographic activity after traumatic brain injury and mild hemorrhage in cats, 812
The relationship of blood flow velocity fluctuations to intracranial pressure B waves, 415
Hearing
Current results of the retrosigmoid approach to acoustic neurinoma, 901
Hearing preservation in acoustic neurinoma surgery, 910
Vestibular schwannomas. Guest editorial, 897
Hemangioendothelioma
Masson's vegetant intravascular hemangioendothelioma. Letters, 890
Hemangioma
Multiple vertebral hemangiomas with neurological signs. Case report, 1025
Hematoma
Ligamentum flavum hematoma. Report of two cases, 534
Hemoglobin
The effect of hemoglobin on vasodilatory effect of calcium antagonists in the isolated rabbit basilar artery, 670
Oxyhemoglobin-induced vasospasm. Letters, 725
Hemorrhage
An analysis of the venous drainage system as a factor in hemorrhage from arteriovenous malformations, 239
The effects of lumbar sympathectomy on regional spinal cord blood flow in rats during acute hemorrhagic hypotension, 687
Reduced cerebral blood flow, oxygen delivery, and electroencephalographic activity after traumatic brain injury and mild hemorrhage in cats, 812
Relationship of perfusion pressure and size to risk of hemorrhage from arteriovenous malformations, 918
Herniated disc
Lateral disc herniations. Letters, 342
Hippocampus
Hippocampal pathology in patients with intractable seizures and temporal lobe masses, 735
Transient glucose hypermetabolism after acute subdural hematoma in the rat, 471
Historical vignette
The Krause operations, 1032
Mr. Jefferson's Rotunda, 883
Percivall Pott: an 18th century neurosurgeon, 319
Two examples of ancient skull surgery, 550
Hodgkin's disease
Primary intracranial Hodgkin's lymphoma without dural attachment. Case report, 692
Hybridization
Interphase cytogenetics: a new tool for the study of genetic changes in brain tumors, 997
Hydrocephalus
Reconstitution of shunted mantle in experimental hydrocephalus, 856
The relationship of ventricular drainage to aneurysmal rebleeding, 422
Relief of akinetic mutism from obstructive hydrocephalus using bromocriptine and ephedrine. Case report, 152
Hydromyelia
Chiari malformation hydromyelia vs. syringomyelia. Letters, 1043
Thecoperitoneal shunt for syringomyelia. Letters, 1047
Hyperbaric oxygen
Results of a prospective randomized trial for treatment of severely brain-injured patients with hyperbaric oxygen, 929
Hyperperfusion
Effect of mannitol on local cerebral blood flow after temporary

complete cerebral ischemia in rats, 486
Perfusion pressure breakthrough threshold of cerebral autoregulation in the chronically ischemic brain: an experimental study in cats, 478
Hypertonic saline
Intravenous fluid tonicity: effect on intracranial pressure, cerebral blood flow, and cerebral oxygen delivery in focal brain injury, 91
Hyperventilation
Malignant lymphoma of the central nervous system presenting with central neurogenic hyperventilation. Case report, 696
Hypotension
The effects of lumbar sympathectomy on regional spinal cord blood flow in rats during acute hemorrhagic hypotension, 687
Hypovolemia
The cerebral hemodynamics of normotensive hypovolemia during lower-body negative pressure, 961

Immunohistochemistry
Adhesion molecules and malignant gliomas: implications for tumorigenesis. Review article, 782
Correlation of basic fibroblast growth factor expression levels with the degree of malignancy and vascularity in human gliomas, 792
Intraventricular neurocytoma: clinicopathological analysis of seven cases, 759
Immunosuppression
In vitro analysis of the proliferative potential of T cells from patients with brain tumor: glioma-associated immunosuppression unrelated to intrinsic cellular defect, 251
Immunotherapy
Human antiglioma monoclonal antibodies from patients with astrocytic tumors, 660
Treatment of murine primary brain tumors with systemic interleukin-2 and tumor-infiltrating lymphocytes, 513
Immunotoxin
Immunotoxins and central nervous system neoplasia. Review article, 1
In vitro efficacy of transferrin-toxin conjugates against glioblastoma multiforme, 838
Infrared spectroscopy
Intracerebral penetration of infrared light. Technical note, 315
Instrumentation
Instrumentation for microsurgical osseous dissection. Technical note, 156
Instrumentation for spinal trauma. Letters, 560
A portable traction device for cervical fractures. Technical note, 544
Interleukin-2
Treatment of murine primary brain tumors with systemic interleukin-2 and tumor-infiltrating lymphocytes, 513
Internal carotid artery
Direct approach to a traumatic giant internal carotid artery aneurysm associated with a carotid-cavernous fistula. Case report, 524
Resolution of petrous internal carotid artery stenosis after transluminal angioplasty. Case report, 520
Thromboendarterectomy of the symptomatic occluded internal carotid artery, 752
Interphase cytogenetics
Interphase cytogenetics: a new tool for the study of genetic changes in brain tumors, 997
Interstitial irradiation
Selection bias, survival, and brachytherapy for glioma, 179
Intervertebral disc
Complications of percutaneous laser nucleolysis. Letters, 1041
Lateral disc herniations. Letters, 342
A 1- to 4-year follow-up review of treatment of sciatica using chemonucleolysis or laminectomy, 184
Intracerebral hemorrhage
Lobar intracerebral hemorrhage. A clinical, radiographic, and pathological study of 29 consecutive operated cases with negative angiography, 231
Intracranial pressure
Central and peripheral biogenic amine effects of brain missile wounding and increased intracranial pressure, 119
Effect of head elevation on intracranial pressure, cerebral perfusion pressure, and cerebral blood flow in head-injured patients, 207
The relationship of blood flow velocity fluctuations to intracranial pressure B waves, 415
Intraoperative monitoring
Surgical excision of giant cerebellar hemispheric arteriovenous malformations following preoperative embolization. Report of two cases, 1008
Intraventricular tumor
Intraventricular neurocytoma: clinicopathological analysis of seven cases, 759
Ischemia
Action of phospholipases A_2 and C on free fatty acid release during complete ischemia in rat neocortex. Effect of phospholipase C inhibitor and N-methyl-D-aspartate antagonist, 648
Autoradiographic analysis of ^{3}H-MK-801 (dizocilpine) *in vivo* uptake and *in vitro* binding after focal cerebral ischemia in the rat, 127
Changes in major phospholipids of mitochondria during postischemic reperfusion in rat brain, 244
Continuous monitoring of jugular venous oxygen saturation in head-injured patients, 212
Effect of mannitol on local cerebral blood flow after temporary complete cerebral ischemia in rats, 486
Efficacy of LY233053, a competitive glutamate antagonist, in experimental central nervous system ischemia, 106
Perfusion pressure breakthrough threshold of cerebral autoregulation in the chronically ischemic brain: an experimental study in cats, 478
Isoflurane
Cerebral protection during aneurysm surgery with isoflurane anesthesia. Technical note, 541

Kölliker-Fuse nucleus
Chronic stimulation of the Kölliker-Fuse nucleus region for relief of intractable pain in humans, 979
Krause, Fedor
The Krause operations. Historical vignette, 1032

Laminectomy
A 1- to 4-year follow-up review of treatment of sciatica using chemonucleolysis or laminectomy, 184
Laser
Complications of percutaneous laser nucleolysis. Letters, 1041
End-to-side anastomosis of small vessels using an Nd:YAG laser with a hemispherical contact probe. Technical note, 546
Laser-induced fluorescence: experimental intraoperative delineation of tumor resection margins, 679
Lateral sinus
Etiological evaluation of dural arteriovenous malformations of the lateral and sigmoid sinuses based on histopathological examinations, 600
Lazarus' sign
Preserved spinal dorsal horn potentials in a brain-dead patient with Lazarus' sign. Case report, 710

Leukotriene
Leukotrienes and cerebral edema. Letters, 339
Ligamentum flavum
Ligamentum flavum hematoma. Report of two cases, 534
Lipid peroxidation
The neuroprotective pharmacology of methylprednisolone. Review article, 13
Lipoma
Lipoma involving the skull. Case report, 312
Lumbar spine
Biomechanics of sequential posterior lumbar surgical alterations, 805
Diagnosis and treatment of Ogilvie's syndrome after lumbar spinal surgery. Report of three cases, 1012
Lymphoma
Malignant lymphoma of the central nervous system presenting with central neurogenic hyperventilation. Case report, 696
Primary intracranial Hodgkin's lymphoma without dural attachment. Case report, 692
Secondary malignant lymphoma of the central nervous system with delayed high uptake on ^{123}I-IMP single-photon emission computerized tomography. Case report, 871

Magnetic resonance imaging
Increased MR signal intensity and myelopathy. Letters, 171
In vivo magnetic resonance imaging of fetal cat neural tissue transplants in the adult cat spinal cord, 261
Prognostic significance of magnetic resonance imaging in the acute phase of cervical spine injury, 218
Major histocompatibility complex
Major histocompatibility antigens in murine tumors. Letters, 1048
Suppression of anchorage-independent growth of human glioblastoma cell by major histocompatibility complex class I gene-transfection, 845
Mannitol
Effect of mannitol on local cerebral blood flow after temporary complete cerebral ischemia in rats, 486
Melanotic meningioma
Meningeal melanocytoma: magnetic resonance imaging characteristics and pathological features. Case report, 705
Meningeal melanocytoma
Meningeal melanocytoma: magnetic resonance imaging characteristics and pathological features. Case report, 705
Meningeal tumor
Fibroma of the meninges in a child: immunohistological and ultrastructural study. Case report, 143
Meningioma
The combined supra- and infratentorial approach for lesions of the petrous and clival regions: experience with 46 cases, 588
Temporal bone neoplasms: a report on 20 surgically treated cases, 578
Mesencephalotomy
Mesencephalotomy for cancer pain. Letters, 1052
Metastasis
Metastatic choriocarcinoma with neoplastic aneurysms cured by aneurysm resection and chemotherapy. Case report, 148
Stereotactic radiosurgical treatment of brain metastases, 444
Methyl methacrylate
Surgical stabilization of cervical spinal fractures using methyl methacrylate. Technical considerations and long-term results in 52 patients, 440
Methylprednisolone
Methylprednisolone or naloxone treatment after acute spinal cord injury: 1-year follow-up data. Results of the second National Acute Spinal Cord Injury Study, 23
The neuroprotective pharmacology of methylprednisolone. Review article, 13
Microvascular decompression
Geniculate neuralgia. Letters, 888
Neurovascular compression in trigeminal neuralgia: a clinical and anatomical study, 948
Monoamine
Central and peripheral biogenic amine effects of brain missile wounding and increased intracranial pressure, 119
Monoclonal antibody
Human antiglioma monoclonal antibodies from patients with astrocytic tumors, 660
Immunotoxins and central nervous system neoplasia. Review article, 1
Osteomyelitis in the elderly. Letters, 889
Multidrug resistance gene
Development of multidrug resistance in a primitive neuroectodermal tumor cell line, 502
Multidrug resistance gene expression in pediatric primitive neuroectodermal tumors of the central nervous system, 507
Mutism
Relief of akinetic mutism from obstructive hydrocephalus using bromocriptine and ephedrine. Case report, 152
Myelopathy
Cranial and sacral dural arteriovenous fistulas as a cause of myelopathy, 615
Increased MR signal intensity and myelopathy. Letters, 171
Myelotomy
Myelotomy in spinal spasticity. Letters, 561

Naloxone
Methylprednisolone or naloxone treatment after acute spinal cord injury: 1-year follow-up data. Results of the second National Acute Spinal Cord Injury Study, 23
National Acute Spinal Cord Injury Study
Methylprednisolone or naloxone treatment after acute spinal cord injury: 1-year follow-up data. Results of the second National Acute Spinal Cord Injury Study, 23
Natural killer cell
Sensitivity of human glioma and brain cells to natural killer cell lysis. Effects of serum concentration, epidermal growth factor, and time in culture, 986
Neovascularization
Endothelial cell chemotactic factor derived from human glioma cell lines, 822
Nerve, *see* specific nerves
Nerve graft
Intraforaminal repair of plexus spinal nerves by a posterior approach: an experimental study, 459
Nerve transfer in brachial plexus traction injuries, 191
Nerve repair
Intraforaminal repair of plexus spinal nerves by a posterior approach: an experimental study, 459
Reconstruction of the third through sixth cranial nerves during cavernous sinus surgery, 935
Nerve root avulsion
Nerve transfer in brachial plexus traction injuries, 191
Neurocytoma
Central neurocytoma: histopathological variants and therapeutic approaches, 32
Intraventricular neurocytoma: clinicopathological analysis of seven cases, 759
Neuron
Hippocampal pathology in patients with intractable seizures and temporal lobe masses, 735
Neuro-ophthalmology
Neuro-ophthalmological function of patients with pineal region tumors approached transtentorially in the semisitting position, 746
Neuropathy
Radiation-induced optic neuropathy. Letters, 173
Neurosurgical history, *see also* Historical vignette
A height-based nomenclature of greatness. Letters, 726

Index

Neurosurgical liability
Neurosurgical liability: the expert witness, 334
Nimodipine
The effect of hemoglobin on vasodilatory effect of calcium antagonists in the isolated rabbit basilar artery, 670
Overall outcome in aneurysmal subarachnoid hemorrhage. A prospective study from neurosurgical units in Sweden during a 1-year period, 729
N-methyl-D-aspartate
Action of phospholipases A_2 and C on free fatty acid release during complete ischemia in rat neocortex. Effect of phospholipase C inhibitor and N-methyl-D-aspartate antagonist, 648
Autoradiographic analysis of ^{3}H-MK-801 (dizocilpine) *in vivo* uptake and *in vitro* binding after focal cerebral ischemia in the rat, 127
Nutrition
Nutrition in head-injured patients. Letters, 170

Octreotide
Intraventricular octreotide for cancer pain. Letters, 336
Oculomotor nerve
Reconstruction of the third through sixth cranial nerves during cavernous sinus surgery, 935
Ogilvie's syndrome
Diagnosis and treatment of Ogilvie's syndrome after lumbar spinal surgery. Report of three cases, 1012
Oligodendroglioma
Oligodendrogliomas: the Mayo Clinic experience, 428
The treatment of oligodendrogliomas and mixed oligodendroglioma-astrocytomas with PCV chemotherapy, 741
Oncogene
Effect of the expression of transforming growth factor-β2 in primary human glioblastomas on immunosuppression and loss of immune surveillance, 799
Operative technique, *see also* Surgical approach
Anterior cervical vertebrectomy and interbody fusion. Technical note, 159
End-to-side anastomosis of small vessels using an Nd:YAG laser with a hemispherical contact probe. Technical note, 546
Intraforaminal repair of plexus spinal nerves by a posterior approach: an experimental study, 459
The Krause operations. Historical vignette, J25
Laser-induced fluorescence: experimental intraoperative delineation of tumor resection margins, 679
Long-term results after lateral canthal advancement for unilateral coronal synostosis, 401
A newly designed puncture needle for suction decompression of giant aneurysms. Technical note, 880
Reconstruction of the temporalis muscle. Letters, 336
Severe limitation in mouth opening following transtemporal neurosurgical procedures: diagnosis, treatment, and prevention, 623
Surgical stabilization of cervical spinal fractures using methyl methacrylate. Technical considerations and long-term results in 52 patients, 440
Optic nerve
Radiation-induced optic neuropathy. Letters, 173
Osmolarity
Intravenous fluid tonicity: effect on intracranial pressure, cerebral blood flow, and cerebral oxygen delivery in focal brain injury, 91
Osteomyelitis
Osteomyelitis in the elderly. Letters, 889
Otalgia
Geniculate neuralgia. Letters, 888
Outcome
Oligodendrogliomas: the Mayo Clinic experience, 428
Overall outcome in aneurysmal subarachnoid hemorrhage. A prospective study from neurosurgical units in Sweden during a 1-year period, 729
Selection bias, survival, and brachytherapy for glioma, 179
The symptomatic and functional outcome of stereotactic thalamotomy for medically intractable essential tremor, 924

Pain
Chronic stimulation of the Kölliker-Fuse nucleus region for relief of intractable pain in humans, 979
Intraventricular octreotide for cancer pain. Letters, 336
Mesencephalotomy for cancer pain. Letters, 1052
Patient-interactive, computer-controlled neurological stimulation system: clinical efficacy in spinal cord stimulator adjustment, 967
Pallidotomy
Leksell's posteroventral pallidotomy in the treatment of Parkinson's disease, 53
Parinaud's syndrome
Neuro-ophthalmological function of patients with pineal region tumors approached transtentorially in the semisitting position, 746
Parkinson's disease
Leksell's posteroventral pallidotomy in the treatment of Parkinson's disease, 53
Stereotactic thalamotomy. Letters, 891
Perfusion pressure
Effect of head elevation on intracranial pressure, cerebral perfusion pressure, and cerebral blood flow in head-injured patients, 207
Perfusion pressure breakthrough threshold of cerebral autoregulation in the chronically ischemic brain: an experimental study in cats, 478
Relationship of perfusion pressure and size to risk of hemorrhage from arteriovenous malformations, 918
Peroneal nerve
Ultrasound diagnosis of an intraneural ganglion cyst of the peroneal nerve. Case report, 538
Phosphate compounds
High-energy phosphate levels in the cerebral artery during chronic vasospasm after subarachnoid hemorrhage, 991
Phospholipase
Action of phospholipases A_2 and C on free fatty acid release during complete ischemia in rat neocortex. Effect of phospholipase C inhibitor and N-methyl-D-aspartate antagonist, 648
Phospholipid
Changes in major phospholipids of mitochondria during postischemic reperfusion in rat brain, 244
Photoradiation therapy
Laser-induced fluorescence: experimental intraoperative delineation of tumor resection margins, 679
Pineal tumor
Neuro-ophthalmological function of patients with pineal region tumors approached transtentorially in the semisitting position, 746
Pneumocephalus
Tension pneumocephalus associated with rupture of a middle fossa encephalocele. Case report, 292
Polyvinyl alcohol
Histopathological follow-up study of 66 cerebral arteriovenous malformations after therapeutic embolization with polyvinyl alcohol, 607
Positron emission tomography
Cerebral blood flow and metabolism following superficial temporal artery to superior cerebellar artery bypass for vertebrobasilar occlusive disease, 955
Posterior circulation
Posterior circulation dissections. Letters, 562
Posterior communicating artery
Anomalous arrangement of the origins of the anterior choroidal

and posterior communicating arteries. Case report, 1017
Posterior fossa
Evoked potentials from direct cerebellar stimulation for monitoring of the rodent spinal cord, 280
Postischemic reperfusion
Changes in major phospholipids of mitochondria during postischemic reperfusion in rat brain, 244
Pott, Percivall
Percivall Pott: an 18th century neurosurgeon. Historical vignette, 319
Pregnancy
Spontaneous intracerebral hematoma from occult carotid-cavernous fistula during pregnancy and puerperium. Case report, 714
Primitive neuroectodermal tumor
Development of multidrug resistance in a primitive neuroectodermal tumor cell line, 502
Multidrug resistance gene expression in pediatric primitive neuroectodermal tumors of the central nervous system, 507
Procarbazine
The treatment of oligodendrogliomas and mixed oligodendroglioma-astrocytomas with PCV chemotherapy, 741
Prognosis
Prediction tree for severely head-injured patients. Letters, 561
Protease
The effect of tumor necrosis factor-α on human malignant glial cells, 652
Protein kinase C
Direct evidence for a key role of protein kinase C in the development of vasospasm after subarachnoid hemorrhage, 635
Effects of inhibitors of protein kinase C and calpain in experimental delayed cerebral vasospasm, 111
Publication
On the subject of double publication. Letters, 723

Queckenstedt test
Significance of positive Queckenstedt test in patients with syringomyelia associated with Arnold-Chiari malformations, 67

Radiation-induced lesion
Radiation-induced optic neuropathy. Letters, 173
Radiation therapy
Central neurocytoma: histopathological variants and therapeutic approaches, 32
Multiple vertebral hemangiomas with neurological signs. Case report, 1025
Radiosurgery
Brain tolerance to radiosurgery: correction. Letters, 343
Brain tolerance to radiosurgery. Letters, 557
Complications of radiosurgery for brain AVM's. Letters, 559
Radiosurgery of arteriovenous malformations. Letters, 1045
Stereotactic radiosurgical treatment of brain metastases, 444
Rebleeding
The relationship of ventricular drainage to aneurysmal rebleeding, 422
Recirculation
Effect of mannitol on local cerebral blood flow after temporary complete cerebral ischemia in rats, 486
Perfusion pressure breakthrough threshold of cerebral autoregulation in the chronically ischemic brain: an experimental study in cats, 478
Retrolabyrinthine approach
The combined supra- and infratentorial approach for lesions of the petrous and clival regions: experience with 46 cases, 588
Retrosigmoid approach
Current results of the retrosigmoid approach to acoustic neurinoma, 901

Rhabdomyosarcoma
Malignant triton tumor of the acoustic nerve. Case report, 874
Rhizotomy
Selective dorsal rhizotomy. Letters, 1047

Schwannoma
Malignant triton tumor of the acoustic nerve. Case report, 874
Vestibular schwannomas. Guest editorial, 897
Sciatic nerve
The effects of lumbar sympathectomy on regional spinal cord blood flow in rats during acute hemorrhagic hypotension, 687
Seizure
Early seizures after mild closed head injury, 435
Hippocampal pathology in patients with intractable seizures and temporal lobe masses, 735
Shock
Reduced cerebral blood flow, oxygen delivery, and electroencephalographic activity after traumatic brain injury and mild hemorrhage in cats, 812
Shunt
Eosinophilia following shunting. Letters, 724
Thecoperitoneal shunt for syringomyelia. Letters, 1047
Thecoperitoneal shunting. Letters, 173
Sickle-cell anemia
Intracranial aneurysms in sickle-cell anemia. Letters, 1051
Pathogenesis of sickle-cell anemia and aneurysm. Letters, 1050
Sickle-cell disease: correction. Letters, 726
Sigmoid sinus
Etiological evaluation of dural arteriovenous malformations of the lateral and sigmoid sinuses based on histopathological examinations, 600
Single-photon emission computerized tomography
Secondary malignant lymphoma of the central nervous system with delayed high uptake on ^{123}I-IMP single-photon emission computerized tomography. Case report, 871
Skull-base surgery
Severe limitation in mouth opening following transtemporal neurosurgical procedures: diagnosis, treatment, and prevention, 623
Skull-base surgery: a perspective. Guest editorial, 569
Transnasal stereotactic biopsy of a clivus tumor. Technical note, 878
Skull-base tumor
Approach to skull-base tumors. Letters, 174
The combined supra- and infratentorial approach for lesions of the petrous and clival regions: experience with 46 cases, 588
The extended frontal approach to tumors of the anterior, middle, and posterior skull base, 198
Skull base amyloidoma. Case report, 303
Temporal bone neoplasms: a report on 20 surgically treated cases, 578
Skull tumor
Lipoma involving the skull. Case report, 312
Smooth muscle
Cytoskeletal and extracellular matrix proteins in cerebral arteries following subarachnoid hemorrhage in monkeys, 81
The effect of hemoglobin on vasodilatory effect of calcium antagonists in the isolated rabbit basilar artery, 670
Effects of inhibitors of protein kinase C and calpain in experimental delayed cerebral vasospasm, 111
Endothelin-1 of canine basilar artery in vasospasm, 99
Somatosensory evoked potentials
Intraoperative localization of the central sulcus by cortical somatosensory evoked potentials in brain tumor. Case report, 867
Spasticity
Myelotomy in spinal spasticity. Letters, 561

Index

Spectroscopy
Intracerebral penetration of infrared light. Technical note, 315
Spinal arteriovenous malformation
Cranial and sacral dural arteriovenous fistulas as a cause of myelopathy, 615
Spinal cord
Cavernous angiomas of the central nervous system in children, 38
Intramedullary epidermoid cysts of the spinal cord. Case report, 528
Spinal cord blood flow
The effects of lumbar sympathectomy on regional spinal cord blood flow in rats during acute hemorrhagic hypotension, 687
Spinal cord injury
In vivo magnetic resonance imaging of fetal cat neural tissue transplants in the adult cat spinal cord, 261
Methylprednisolone or naloxone treatment after acute spinal cord injury: 1-year follow-up data. Results of the second National Acute Spinal Cord Injury Study, 23
The neuroprotective pharmacology of methylprednisolone. Posttraumatic secondary spinal cord trauma. Letters, 723
Prognostic significance of magnetic resonance imaging in the acute phase of cervical spine injury, 218
Spinal cord monitoring
Evoked potentials from direct cerebellar stimulation for monitoring of the rodent spinal cord, 280
Spinal cord stimulation
Patient-interactive, computer-controlled neurological stimulation system: clinical efficacy in spinal cord stimulator adjustment, 967
Spinal fracture
A portable traction device for cervical fractures. Technical note, 544
Surgical stabilization of cervical spinal fractures using methyl methacrylate. Technical considerations and long-term results in 52 patients, 440
Spinal fusion
Anterior cervical vertebrectomy and interbody fusion. Technical note, 159
Multilevel anterior cervical fusion using skull bone grafts. Case report, 298
Spinal lesion
Spinal subdural abscess. Case report, 307
Spinal ligament
Biomechanics of sequential posterior lumbar surgical alterations, 805
Spinal neoplasm
Multiple vertebral hemangiomas with neurological signs. Case report, 1025
Spinal nerve root
Intraforaminal repair of plexus spinal nerves by a posterior approach: an experimental study, 459
Spinal trauma
Instrumentation for spinal trauma. Letters, 560
Spondylosis
Multilevel anterior cervical fusion using skull bone grafts. Case report, 298
Squamous-cell carcinoma
Temporal bone neoplasms: a report on 20 surgically treated cases, 578
Stereotaxis
Leksell's posteroventral pallidotomy in the treatment of Parkinson's disease, 53
Stereotactic radiosurgical treatment of brain metastases, 444
The symptomatic and functional outcome of stereotactic thalamotomy for medically intractable essential tremor, 924
Timing of stereotactic procedures. Letters, 1044
Subarachnoid hemorrhage
Angiographic frequency of saccular intracranial aneurysms in patients with spontaneous cervical artery dissection, 62
Cytoskeletal and extracellular matrix proteins in cerebral arteries following subarachnoid hemorrhage in monkeys, 81
Direct evidence for a key role of protein kinase C in the development of vasospasm after subarachnoid hemorrhage, 635
The effect of chronic subarachnoid hemorrhage on basal endothelium-derived relaxing factor activity in intrathecal cerebral arteries, 830
Overall outcome in aneurysmal subarachnoid hemorrhage. A prospective study from neurosurgical units in Sweden during a 1-year period, 729
Posterior circulation dissections. Letters, 562
The relationship of ventricular drainage to aneurysmal rebleeding, 422
Rupture of previously documented small asymptomatic saccular intracranial aneurysms. Report of three cases, 1019
Terson's syndrome: a reversible cause of blindness following subarachnoid hemorrhage, 766
Time course of the impairment of cerebral autoregulation during chronic cerebral vasospasm after subarachnoid hemorrhage in primates, 493
Subdural hematoma
Iatrogenic arteriovenous fistula presenting as a recurrent subdural hematoma. Case report, 134
Transient glucose hypermetabolism after acute subdural hematoma in the rat, 471
Subhyaloid hemorrhage
Terson's syndrome: a reversible cause of blindness following subarachnoid hemorrhage, 766
Sulcus
Intraoperative localization of the central sulcus by cortical somatosensory evoked potentials in brain tumor. Case report, 867
Superoxide dismutase
The effect of tumor necrosis factor-α on human malignant glial cells, 652
Surgical approach, *see also* specific approaches
Approach to skull-base tumors. Letters, 174
The combined supra- and infratentorial approach for lesions of the petrous and clival regions: experience with 46 cases, 588
Current results of the retrosigmoid approach to acoustic neurinoma, 901
The extended frontal approach to tumors of the anterior, middle, and posterior skull base, 198
Hearing preservation in acoustic neurinoma surgery, 910
Surgical approach to unilateral coronal synostosis. Editorial comment, 406
Transnasal stereotactic biopsy of a clivus tumor. Technical note, 878
Syringomyelia
Chiari malformation hydromyelia vs. syringomyelia. Letters, 1043
Significance of positive Queckenstedt test in patients with syringomyelia associated with Arnold-Chiari malformations, 67
Thecoperitoneal shunting. Letters, 173

T cell
In vitro analysis of the proliferative potential of T cells from patients with brain tumor: glioma-associated immunosuppression unrelated to intrinsic cellular defect, 251
Temporal bone
Temporal bone neoplasms: a report on 20 surgically treated cases, 578
Temporalis muscle
Reconstruction of the temporalis muscle. Letters, 336
Temporal lobe
Hippocampal pathology in patients with intractable seizures and temporal lobe masses, 735
Temporomandibular joint
Severe limitation in mouth opening following transtemporal

neurosurgical procedures: diagnosis, treatment, and prevention, 623
Tentorium
Variations in location of the arteries coursing between the brain stem and the free edge of the tentorium, 973
Terson's syndrome
Terson's syndrome: a reversible cause of blindness following subarachnoid hemorrhage, 766
Thalamotomy
Leksell's posteroventral pallidotomy in the treatment of Parkinson's disease, 53
Stereotactic thalamotomy. Letters, 891
The symptomatic and functional outcome of stereotactic thalamotomy for medically intractable essential tremor, 924
Third ventricle
Third ventriculostomy. Letters, 890
Thrombectomy
Thromboendarterectomy of the symptomatic occluded internal carotid artery, 752
Thrombolytic therapy
Intra-arterial urokinase for treatment of retrograde thrombosis following resection of an arteriovenous malformation. Case report, 1004
Thrombolytic therapy for vascular occlusion. Letters, 168
Timing of surgery
Overall outcome in aneurysmal subarachnoid hemorrhage. A prospective study from neurosurgical units in Sweden during a 1-year period, 729
Tissue plasminogen activator
Thrombolytic therapy for vascular occlusion. Letters, 168
Transferrin receptor
Immunotoxins and central nervous system neoplasia. Review article, 1
In vitro efficacy of transferrin-toxin conjugates against glioblastoma multiforme, 838
Transforming growth factor
Effect of the expression of transforming growth factor-$\beta 2$ in primary human glioblastomas on immunosuppression and loss of immune surveillance, 799
Interaction of acidic fibroblast growth factor and transforming growth factor-β in normal and transformed glia *in vitro*, 850
Translabyrinthine approach
The combined supra- and infratentorial approach for lesions of the petrous and clival regions: experience with 46 cases, 588
Transplantation
In vivo magnetic resonance imaging of fetal cat neural tissue transplants in the adult cat spinal cord, 261
Transtentorial approach
Neuro-ophthalmological function of patients with pineal region tumors approached transtentorially in the semisitting position, 746
Traumatic Coma Data Bank
Diffuse brain swelling in severely head-injured children. A report from the NIH Traumatic Coma Data Bank, 450
Tremor
Leksell's posteroventral pallidotomy in the treatment of Parkinson's disease, 53
The symptomatic and functional outcome of stereotactic thalamotomy for medically intractable essential tremor, 924
Trephination
Two examples of ancient skull surgery. Historical vignette, 550
Trigeminal nerve
Reconstruction of the third through sixth cranial nerves during cavernous sinus surgery, 935
Trigeminal neuralgia
Neurovascular compression in trigeminal neuralgia: a clinical and anatomical study, 948
Triton tumor
Malignant triton tumor of the acoustic nerve. Case report, 874
Tumor, *see* specific tumors
Tumor growth
Suppression of anchorage-independent growth of human glioblastoma cell by major histocompatibility complex class I gene-transfection, 845
Tumor-infiltrating lymphocyte
Adhesion molecules and malignant gliomas: implications for tumorigenesis. Review article, 782
Treatment of murine primary brain tumors with systemic interleukin-2 and tumor-infiltrating lymphocytes, 513
Tumor necrosis factor
The effect of tumor necrosis factor-α on human malignant glial cells, 652
Tumor recurrence
Central neurocytoma: histopathological variants and therapeutic approaches, 32
Tumor resection
Laser-induced fluorescence: experimental intraoperative delineation of tumor resection margins, 679

Ulnar nerve
Tortuous peripheral arteries: a cause of focal neuropathy. Case report, 700
Ultrasound
The cerebral hemodynamics of normotensive hypovolemia during lower-body negative pressure, 961
The relationship of blood flow velocity fluctuations to intracranial pressure B waves, 415
Remote congenital cerebral arteriovenous fistulae associated with aortic coarctation. Case report, 137
Ultrasound diagnosis of an intraneural ganglion cyst of the peroneal nerve. Case report, 538
Ultrastructural study, *see* Electron microscopic study
University of Virginia
Mr. Jefferson's Rotunda. Historical vignette, 883
Urokinase
Intra-arterial urokinase for treatment of retrograde thrombosis following resection of an arteriovenous malformation. Case report, 1004

Varix
Remote congenital cerebral arteriovenous fistulae associated with aortic coarctation. Case report, 137
Vascular anastomosis
Anastomosis of the anterior temporal artery to a secondary trunk of the middle cerebral artery for treatment of a giant M_1 segment aneurysm. Case report, 863
Cerebral blood flow and metabolism following superficial temporal artery to superior cerebellar artery bypass for vertebrobasilar occlusive disease, 955
End-to-side anastomosis of small vessels using an Nd:YAG laser with a hemispherical contact probe. Technical note, 546
Vascular anomaly
Aneurysms arising from the proximal (A_1) segment of the anterior cerebral artery. A study of 38 cases, 455
Vascular compression
Tortuous peripheral arteries: a cause of focal neuropathy. Case report, 700
Vascular malformation, *see* Arteriovenous malformation
Vascular occlusion
Thrombolytic therapy for vascular occlusion. Letters, 168
Vasospasm
Cytoskeletal and extracellular matrix proteins in cerebral arteries following subarachnoid hemorrhage in monkeys, 81
Direct evidence for a key role of protein kinase C in the development of vasospasm after subarachnoid hemorrhage, 635
Effect of AT877 on cerebral vasospasm after aneurysmal sub-

arachnoid hemorrhage. Results of a prospective placebo-controlled double-blind trial, 571
The effect of chronic subarachnoid hemorrhage on basal endothelium-derived relaxing factor activity in intrathecal cerebral arteries, 830
The effect of hemoglobin on vasodilatory effect of calcium antagonists in the isolated rabbit basilar artery, 670
Effects of inhibitors of protein kinase C and calpain in experimental delayed cerebral vasospasm, 111
Endothelin-1 of canine basilar artery in vasospasm, 99
High-energy phosphate levels in the cerebral artery during chronic vasospasm after subarachnoid hemorrhage, 991
Oxyhemoglobin-induced vasospasm. Letters, 725
Time course of the impairment of cerebral autoregulation during chronic cerebral vasospasm after subarachnoid hemorrhage in primates, 493
Venous drainage
An analysis of the venous drainage system as a factor in hemorrhage from arteriovenous malformations, 239
Venous oxygen saturation
Continuous monitoring of jugular venous oxygen saturation in head-injured patients, 212
Ventricular drainage
The relationship of ventricular drainage to aneurysmal rebleeding, 422
Ventriculography
Stereotactic thalamotomy. Letters, 891
Ventriculostomy
Third ventriculostomy. Letters, 890
Vertebral fracture
Prognostic significance of magnetic resonance imaging in the acute phase of cervical spine injury, 218
Vertebrectomy
Anterior cervical vertebrectomy and interbody fusion. Technical note, 159
Vertebrobasilar insufficiency
Cerebral blood flow and metabolism following superficial temporal artery to superior cerebellar artery bypass for vertebrobasilar occlusive disease, 955
Vestibular tumor
Vestibular schwannomas. Guest editorial, 897
Vincristine
The treatment of oligodendrogliomas and mixed oligodendroglioma-astrocytomas with PCV chemotherapy, 741
